Second Announcement

Dear colleague,

This is the second announcement of the next **International Radiation Symposium (IRS)** which will be held from **6-10 July, 2020 in Thessaloniki, Greece.** The Symposium is organized by the International Radiation Commission (IRC) of the International Association of Meteorology and Atmospheric Sciences (IAMAS) and the Laboratory of Atmospheric Physics *of the* Aristotle University of Thessaloniki (AUTh). IRS 2020 will provide a comprehensive international forum for presenting and discussing recent research achievements and technological developments on atmospheric radiation and related disciplines. You are cordially invited to attend the symposium to present your scientific work and exchange ideas with top scientists of the Atmospheric Radiation community. IRS 2020 will offer keynote presentations under the Topical Union Session, parallel paper presentations, and poster sessions.

The Symposium comprises the following sessions:

- Topical Union Session
- Radiative Transfer Theory and Modeling
- Particle Radiative Properties
- General Remote Sensing
- Ground-based Measurements and Field Observations
- Radiation Budget and Forcing
- Weather, Climate and Environment Applications
- Solar UV Radiation
- Ocean Optics
- Climate Change in the Mediterranean and Radiative Impacts of a Changing Environment

Submission of Abstracts will be open from **1st September till 20th December 2019.** Please look for details at the symposium's website https://www.irs2020.org/preparation-of-abstracts/.

Registration will be available also **from 1st September 2019** at https://www.irs2020.org/register-now/.

Please pass this announcement on to interested colleagues, especially newcomers to the field.

Looking forward to welcoming you in Thessaloniki.

On behalf of the Local Organizing Committee,

Alkis Bais

Aristotle University of Thessaloniki
